PROMOTING SUCCESS

The Year 10 Visual Art Exhibition

The exhibition showcases all of Yr 10 Art work and Photography work including videos, paintings, drawings and 3D Artworks.

Our Art Faculty at Maclean High School

Lots of great things are happening in the Visual Arts Faculty at Maclean High School.

Firstly, if we are not painting backdrops for the school musical, we are on a bus to Brisbane to visit the Gallery of Modern Art or our local regional galleries.

Secondly, students are having many opportunities to learn the use of new technologies both in the Art classes and in our very popular Photography course which we offer in Year 9.

We support local exhibitions in our community by entering students’ work. The local show, the HSC Exhibition and Yr 10 final display of work, as well as our support of the Gherkin Youth Project at a council level, give all students the opportunity for their work to be displayed in the community.

Thirdly, our students achieve outstanding results in the HSC in Art. We had a number of students selected for Art Express in 2010. Our senior students are represented at the William Dobell School of Art and have achieved photography scholarships for their excellent entries in north coast competitions.

Lastly, students learn in a safe environment with staff who care about the educational welfare of each student. Our staff adopt a positive and hardworking approach to their teaching practice. We believe feedback is the key to enhancing a student’s experience in his/her high school years. In this current educational climate students want to know more about their learning, so they can make better choices.

Maclean High School Visual Arts Faculty offers a positive environment for your child.
